 Caitlin Taylor

ABOUT THE SPEAKER

Dr. Brandy Burgess is an assistant professor of epidemiology and infection control at the University of Georgia's College of Veterinary Medicine. She is also the director of infection control at the U of G Veterinary Teaching Hospital in Athens, Georgia. Dr. Burgess is a board-certified specialist in large animal internal medicine as well as preventive medicine. In 2017, she was a fellow with the Emerging Leaders in Biosecurity Initiative at John Hopkins Bloomberg School of Public Health.

*A reception with complimentary food
and refreshments will follow the seminar*
